PROFILE SUMMARY

Enthusiastic fresher web developer proficient in core HTML, CSS, and JavaScript. Eager to collaborate with teams to tackle challenging projects and contribute innovative solutions. Passionate about continuous learning and growth in the dynamic field of web development.

INTERNSHIP

Code Bind Technologies, Coimbatore

- Completed web development internship, gaining practical experience in HTML, CSS, and JavaScript.
- Worked closely with senior developers to design and implement user interfaces for web projects.
- Developed strong problem-solving skills by troubleshooting and debugging code issues.
- Contributed to the development of responsive and dynamic web applications, assisting in meeting project milestones.

PROJECT

Virtual Learning and Task Management System (HTML, CSS, JavaScript, and MySQL)

- Created a Virtual Learning and Task Management System using HTML, CSS, JavaScript, and MySQL.
- Designed user-friendly interfaces with HTML and CSS, focusing on intuitive navigation.
- Implemented interactive features with JavaScript to enhance user engagement and task organization.
- Utilized MySQL for efficient data storage and management, ensuring system reliability.

SOFT SKILLS

- Communication:** Effective communicator fostering collaboration and clarity within development teams.
- Team Collaboration:** Collaborative team player contributing to project success through support and idea sharing.
- Time Management:** Efficiently meets deadlines in fast-paced environments, delivering quality work consistently.
